HISTORY OF THE COMPANY

01

1968

Alluser Industrie is founded with the aim to design and manufacture quality security products. Alluser began by manufacturing aluminium window frames for public and private institutions.

02

1976

Alluser acknolowledged the need for a secure entrance control solution which matched changing conditions of the market. One of the most innovative integrated systems of security and access control was developed: the Alluser Security Portal.

03

2003

Production of the first prototype of HPJ140, the original Half Security portal.

04

2009

The first Alluser Portal has been tested and certificated in the special version Attack Resistance Class 3 and 4, in accordance with the European standard EN1627-1630.
Today the majority of Alluser products are available in those versions.

05

2015

Alluser got the TUV and ISO certifications. Certified Company UNI EN ISO 9001:2015 Certificate of quality management system n. 5010014143.

06

2016

Alluser presents the fire Rated Half Portal range which provides a highly secure fire rated entrance solution certified to EI120 as per the European Fire Rated norm EN13501-2 & EN1634-1:2014.

07

2018

Alluser has achieved a world-first after announcing its C190-S1 to S3 Security Portals have gained approval to Loss Prevention Standard (LPS) 1175: Issue 7 Security Ratings 1 to 3.
